WELCOME

Hey there! Congrats on your engagement! I'm so happy to have you as part of our little photography family.

You are likely overwhelmed with all the wedding information out there, but don't worry – you're not alone. We are seasoned professionals who are here to help you document one of the biggest days of your life so you have beautiful memories for years and years to come.

The information in this planning guide is meant to help you through all of your photography-related questions so you can relax and get excited for your big day.

If you still have questions, don't hesitate to give us a ring or send over an email!

We are here for you every step of the way.

xoxo, Dee & Steph

MEET THE TEAM

We're Dee and Steph, a husband-and-wife photography and videography team with a shared passion for telling love stories through timeless imagery. Dee has been capturing weddings and special moments for over 13 years, and for the past 9 years of our marriage, Steph has trained alongside him, bringing her own creativity, eye for detail, and heart into the work we do together. We believe wedding photography is so much more than taking pictures—it's an art form. On your wedding day, our goal is to blend into the background, moving with an almost invisible presence, so we can capture authentic, emotional, and fleeting moments without ever pulling you away from the joy of the day. From the tender glances and heartfelt tears to the laughter of your guests and the unforgettable joy you share as a couple, we want your photos and films to allow you to relive it all for years to come.

Your wedding is one of the most meaningful days of your lives, and it's our honor to preserve it in a way that reflects both its beauty and emotion. We approach every wedding with care, artistry, and a genuine love for celebrating people's stories. It would be our privilege to walk alongside you, not just as your photographers and videographers, but as a team dedicated to making sure every cherished memory of your day is captured and remembered forever.

UNPLUGGED

In today's world, we spend so much of our time on computers, cell phones, and other devices. On your wedding day, it's important that everyone is fully present so that the focus can be on you as the bride and groom.

To ensure your guests truly experience and celebrate the day with you, consider asking them to turn off their devices. When everyone is unplugged, they can engage, connect, and fully participate in the joy of your special day.

You and your partner have invested time, effort, and patience to make your wedding unforgettable. The last thing you want is for your photos to capture guests with their heads down, distracted by screens. Unplugging helps create genuine, memorable images.

We understand how attached we all are to our devices—ourselves included! That's why we, as your photographers, also commit to staying present, putting our devices aside, and capturing your day authentically, in every joyful, meaningful moment.

YOU HAVE QUESTIONS, WE HAVE ANSWERS

Q: What sets you apart from other photographers?

A: With years of training under our belt, we know how to pose and guide clients to make them feel relaxed while looking their very best. I use strobe lighting as much as possible and make sure photos are always crisp and colorful!

Q: Will we get the print release to our photos after our wedding?

A: Yes! Upon receiving your images, you will also get a full print release.

Q: How many photographers will be there at our wedding?

A: All of our wedding collections include one primary photographer. Occasionally, a second photographer may join if video services aren't booked. If you choose both photography and videography, one of us will focus on capturing photos while the other handles video. You're also welcome to add a second photographer for an additional fee if you'd like extra coverage. With our combined experience, we almost always capture every important moment, so coverage is rarely an issue.

Q: Will you Photoshop my images to hide any unwanted spots, wrinkles, etc?

A: Minor edits are included for all of your images, as we believe that our natural imperfections are part of what makes each of us beautiful and unique. If you'd like specific or more extensive edits, these can be requested and will be charged based on the number and complexity of the edits. Our formal portraits are typically edited with extra attention to detail, and any unwanted lighting is carefully removed to ensure a polished, timeless look.

Q: Do I have to order prints through you?

A: All of your images will be delivered in a convenient online gallery, which is linked to a professional printing service. While printing through us is completely optional, we highly recommend using a professional printer to ensure your photos maintain their color accuracy and longevity. Drugstore prints can vary in color and often don't last as long as professional-quality prints, so choosing a trusted printer helps preserve your memories beautifully.

Q: Do you photograph destination weddings?

A: Yes! I've shot a handful of destination weddings and am more than happy to create a custom wedding collection to suit your travel needs.
